The Arro-Gun Bullet Hand Carry Fogger offers 4-Cycle convenience in a lightweight portable unit. The simple operation and ease of use makes the Bullet an essential tool for outdoor spot treatments.

Gone are the days of mixing oil and gas and frustrating yanks on the starter rope. The fuel priming system makes starting really easy. Usually one or two gentle pulls of the start rope and the Bullet will rev into action. The 358 CFM blower causes particles to virtually disappear with a powerful air stream, and makes the Bullet much less obtrusive than similar units.

The best news is that the Bullet is one of the most economical units of it's kind. With up to 60 minutes of runtime on every tank of gas, you save on fuel and oil. Don't stop there because, with it's low cost of acquisition, the Bullet starts saving from day one.

TECHNICAL SPECIFICATIONS		
	US	METRIC
DIMENSIONS	15.5 L X 11.5 W X 15 H	39.4 cm X 29.2 cm X 38.1 cm
SHIPPING DIMENSIONS	21 L x 19 W X 19 H	53.3 cm X 48.3 cm X 48.3 cm
NET WEIGHT	13.25 Lbs	6.0 Kg
SHIP WEIGHT	32.00 Lbs	14.5 Kg
ENGINE	4-Cycle, Air Cooled	
Displacement	24.5 cc	
Ignition Type	Electronic High Energy
